**BLYS NIGHTLIGHT**

Blys™ is a sleek, modern light source designed with the specific needs of elderly people. Blys™ can be used as a nightlight or gentle bedroom lighting, and enables access to essential personal possessions during the night, aiding peace of mind and restful sleep.

As a nightlight it provides a low-level glow which allows un-interrupted sleep, but on waking it provides a focus in a room, allowing items such as bedside lights, spectacles, water, phone, and other personal items to be easily identified without switching the main light on.

AQUAPAINT $45.00

Aquapaint is a unique reusable painting activity for people with dementia. Simply brush water onto the sheets and watch the image appear. As the water then dries the image fades ready to be used over and over again. Each canvas starts of white, with a simple clear black outline of the image to help guide the painter. As the water is brushed on, a beautiful image is revealed giving the person that wonderful feeling of painting. This is a fabulous activity for people in mid to late stages of dementia.

AQUAPAIN $45.00

Aquapaint is a unique reusable painting activity for people with dementia. Simply brush water onto the sheets and watch the image appear. As the water then dries the image fades ready to be used over and over again. Each canvas starts of white, with a simple clear black outline of the image to help guide the painter. As the water is brushed on, a beautiful image is revealed giving the person that wonderful feeling of painting. This is a fabulous activity for people in mid to late stages of dementia.
